

The JLG Process

Professional Development

We Review

Our experienced reviewers read more than 3,000 new books prior to publication every year. Only the very best are selected for our 52 levels, from PreK to Mature Young Adult. And, nearly 95% of those we choose receive awards or get favorable reviews.

You Choose

You choose the levels that meet the specific needs of your library. For each level you order, you'll receive one book each month for a year (six audiobooks).

We Deliver

You'll have new materials every single month, all year long. Even at the end of the year when your budget is spent, you'll still have the newest books coming to your library.

Learn Expert Tips for Success in Your Library

Junior Library Guild is proud to offer professional development workshops to help you with your most pressing needs as a librarian. Our workshops will prepare you to use web resources and technology, lead you to new curriculum resources, or even assist with time management skills.

Deborah B. Ford, JLG's Director of Library Outreach, will provide professional development for you and your fellow librarians. Deborah is an award-winning library media specialist and international

speaker with almost thirty years of experience as a classroom teacher and librarian in K-12 schools. She is the former District Resource Librarian for San Diego Unified School District, which serves over 180 schools. Traveling across North America, she does seminars for the Bureau of Education and

NEFLIN, including "Increasing the Effectiveness of Your School Library Program," "Best Books of the Year," and "Web Resources for Elementary Teachers." Deborah is the author of *Scary, Gross and Enlightening: Books for Boys*.
